

# Breast Screening and Diagnostic Services Certification

The European Reference Organisation for Quality Assured Breast Screening and Diagnostic Services  
**EUREF**

In collaboration with  
**ITALCERT** scheme in partnership with **BCCERT**  
provides Voluntary Certification for  
**Breast Diagnostic Units and Breast Screening programmes**

Early detection through screening together with effective diagnostic pathways and optimal treatment will substantially lower breast cancer mortality and reduce the burden of this disease in the population. To achieve these aims requires the highest quality of screening, excellence of mammographic interpretation and programme management together with back-up from support diagnostic breast services. Certification allows tangible and demonstrable recognition of adherence to a recognised quality system and achievement of satisfactory outcomes. EUREF certified units and programmes allow women to choose with confidence that they will receive breast screening and diagnostic services according to the highest European standards of care.

## Mandatory requirements to be fulfilled prior to application

**The Breast Diagnostic Unit has**

- a clinical director
- a critical mass of  $\geq 2000$  mammograms/per year
- a formal data recording system (including image results, assessment reports and outcome)

## Mandatory requirements to be fulfilled prior to application

**The Breast Screening Programme has**

- a programme director
- completed at least two screening rounds
- a critical mass of  $\geq 5000$  mammograms per year
- a functional screening information system

**The Voluntary Certification process is in compliance with the International Regulation on Certification ISO/IEC 17065**
